Supporters

Organised by SMU Executive Development (SMU-ExD) the **Future Ready Forum 2016** covers six business areas, each addressing different issues and opportunities, all focused on the latest and greatest insights that our faculty are currently researching or developing.

Participants can customise their learning by selecting the most relevant subjects to them from a total of 24 sessions covering six business areas (Digital, Strategy, Management, Leadership, Innovation, Human Capital), thus making it an ideal learning opportunity for busy professionals, managers, executives and business owners, who wish to be on the leading edge of business knowledge and practice.

The forum will open with an interactive, closed-door session with NTUC Secretary-General and Minister in the Prime Minister's Office CHAN Chun Sing who would like to talk with participants about "Leaders of Tomorrow". The first day will close with a Panel Discussion on "Leaders of Purpose" which is open to the public, free of charge, and simply requires name registration only.

For more information, download brochure at

Or contact **Justin Chia** at justinchia@smu.edu.sg.

6 FOCUS AREAS

The programme offers themed tracks with a multi-disciplinary approach that provides broad and in-depth analysis. Before the programme begins, you will choose the track that best addresses your organisation's current business challenges.

PLENARY SESSIONS

The first day of the programme begins with a session where key business insights and trends are articulated by experts.

MANAGEMENT INSIGHTS

Discover new market opportunities and hone your business acumen at these sessions to help you design a road map to navigate the future for your organisation.

THOUGHT LEADERS

On the first day, we will conclude with the session featuring a leader who will engage, enlighten and inspire you with their ongoing journey towards achieving excellence.
