[smh.com.au](http://smh.com.au)

Dancers from the Argentinian group Fuerzabruta perform *Mylar* in a translucent 15-metre pool suspended overhead that slowly descends to fingertip level, top right, at the Singapore Management University Green on Saturday. The performance was part of the Night Festival, a nocturnal extravaganza featuring international aerial performances, music, dance and installation artworks in Bras Basah Bugis precinct, Singapore's arts and heritage district. Coloured lights imbue *Mylar* with ever-changing hues and tints amid a rippling water effect across the pool's see-through bottom. Photo: AP/Wong Maye-E
